

SPECIALITYLINE

Lamb with rice & potatoes

- **Complete food.** For adult dogs of all breeds that require a low cholesterol content. Helps fight allergic reactions and inflammation.
- **High digestibility.** The white lamb meat and the rice guarantee the correct supply of proteins and carbohydrates. Indicated for dogs with intestinal problems.
- **Proteins and Vitamins.** This product was formulated with high biological value proteins, like those of the potato, and Vitamin C with its antioxidant and anti free radical action.

package size: 3kg and 15kg

USE INSTRUCTIONS It can be used as is or moistened with warm water or broth. Amounts may vary depending on the special needs of some dogs.

COMPOSITION - Lamb meat (min. fresh 10% and dehydrated min. 26%), corn, rice (min. 23%), chicken oil, sugar beet pulp, potato protein, brewer's yeast, herring meal, Yucca Schidigera, cystine, F.O.S. (Fructooligosaccharides) 381 mg/kg, M.O.S. (Mannooligosaccharides) 381 mg/kg.

ANALYTICAL CONSTITUENTS - Crude Protein 25% - Crude Oils & Fats 15% - Crude Fibres 2.7% - Crude Ash 8% - Omega 6 3.45% - Omega 3 0.92%

NUTRITIONAL ADDITIVES - Vitamins: Vitamin A (as retinyl acetate) 22.750 IU/kg, Vitamin D3 (as cholecalciferol) 1.570 IU/kg, Vitamin E 145 mg/kg, Vitamin C 40 mg/kg, Calcium Pantothenate 15,53 mg/kg, Coline Chloride 2200 mg/kg,

Potassium Chloride 7.685 mg/kg, Inositol 3 mcg/kg, Thiamine (Vitamin B1) 16 mg/kg, Riboflavin (Vitamin B2) 17 mg/kg, Pyridoxine (Vitamin B6) 5 mg/kg, Vitamin B12 0,10 mcg/kg, Biotin (Vitamin H) 0,30 mcg/kg, Niacin 28 mg/kg, Folic Acid 1,50 mg/kg, L-Carnitine 70 mg/kg, Zinc (Zinc Chelate of Amino Acids Hydrate 329 mg/kg, Zinc Sulphate Monohydrate 275 mg/kg): 148 mg/kg, Iron (Ferrous Sulphate Monohydrate 298 mg/kg, Ferrous Chelate of Amino Acids Hydrate 20 mg/kg): 92 mg/kg, Manganese (Manganous Sulphate Monohydrate 108 mg/kg): 35 mg/kg, Copper (Cupric Chelate of Amino Acids Hydrate 39 mg/kg, Cupric Sulphate Pentahydrate 39 mg/kg): 15 mg/kg, Iodine (Calcium Iodate Anhydrous 1,52 mg/kg): 0,93 mg/kg, Selenium (Sodium Selenite 0,49 mg/kg): 0,22 mg/kg. Amino acids: Methionine 1.800 mg/kg.

Metabolisable energy: 4002 Kcal/kg

A diet is based on the animal's Metabolisable Energy requirements. Metabolisable Energy is defined as the energy in a food that is actually absorbed and used by the animal to perform all of its functions.

With fresh lamb meat
Light and digestible

Meat is our loyal friend's main food source. It is a source of proteins, essential for the animal's nutritional needs. It is important to select carefully controlled, high quality, fresh meats. A carefully selected raw material is lighter, more appetising and easier to digest.

Healthy intestine
aids digestion

The intestine plays a vital role in a dog's health. Its task is to complete the absorption of the nutritional elements essential for the animal's wellbeing. It is important to select balanced and light foods, capable of not straining its action.

Rich in Omega-3 and Omega-6
Younger skin

A shiny and healthy coat is not only an aesthetic factor. The haircoat performs numerous functions, including thermal insulation and protection from the harmful rays of the sun and of atmospheric agents. A correct supply of Omega-3 and Omega-6 essential fatty acids is important for the coat to preserve its characteristics.

Recommended daily ration (grams per day)

dog size	active dog	less active dog
MINI (< 5 KG)	105	85
SMALL (5 - 10 KG)	105 - 175	85 - 145
MEDIUM (10 - 25 KG)	175 - 345	145 - 285
MAXI (25 - 50 KG)	345 - 580	285 - 475
GIANT (>50 KG)	> 580	> 475
